

OFFICE OF THE PRESIDENT

Thank you for your interest in Amberton University.

I am delighted that you have taken the time to visit our website. If you are considering enrollment with Amberton University, please allow me to give an overview of what you can expect from your educational experience.

As President of Amberton University, I promise three things that are characteristics of the University's distinguished history, spanning over thirty-five years: 1) Amberton will provide quality education at a reasonable price; 2) Amberton will provide a relevant academic experience; and, 3) Amberton will maintain and encourage a learning environment centered on fairness and concern.

Educationally, Amberton University is accredited and nationally recognized. Amberton University is a teaching university focused on preparing students to reach their educational and personal goals. All faculty not only have high academic credentials but all are experienced practitioners in their fields of study. This real world experience makes each course relevant and pertinent for the adult student. Tuition is very reasonable because the University is not-for-profit and endowment funds of the University are used to keep costs down. In practical terms, every student becomes a scholarship recipient. Philosophically, Amberton is Christian based. While no religious creed is required of students, our conduct and commitment are Christian.

As a student of Amberton University, you will join a society in which all are learners willing to engage in responsible experimentation and innovation. If you are successful in your educational journey, you will join a distinguished group of individuals who have earned the right to be known as Amberton University graduates. Amberton graduates hold positions of leadership and positive influence in many diverse environments in both the public and private sector.

Amberton University is not for everyone. It is designed exclusively for mature, working adults. Our mission is to educate, and we strive to use our intellectual and financial resources to meet our educational goals. Those who are accepted for enrollment will find Amberton University small enough to be responsive and old enough to be academically stable and financially sound.

Welcome to Amberton University.

Melinda H. Reagan
President
