

## Second Degree Plans for Professional Counseling and Marriage & Family Therapy Counseling Programs

MA Professional Counseling and MA Marriage & Family Therapy Counseling degrees require 60 total credit hours to complete each degree. Students desiring a second degree in either one of these programs must complete all degree requirements for the second degree; however, under no circumstances will an official second degree plan be less than an additional 12 credit hours, regardless of the second degree requirements. <u>NOTE</u>: Amberton recommends that students complete the MA Professional Counseling first.

This document is for planning purposes as students complete their programs and select their electives, which can impact requirements for a second degree. Please note that requirements for Second Degree Plans for these programs are subject to change based on the courses taken in the first degree earned and how these courses fit into the second degree. Students **must** apply for an official Second Degree plan through the Academic Services Office **before** beginning classes for the second degree. The form for requesting a Second Degree Plan is available on the University's website. A Second Degree Plan may be requested during the last session of the first master's degree or after the first master's degree is posted to the official transcript.
