The AU Virtual Bookstore provides an easy-to-use interface, online buyback of books, and same day shipment of most titles with an average delivery time of 2-3 days depending on the student's location. Textbook options include new, used, rental, and electronic media as available.

Since no books are sold on campus, students should plan accordingly and purchase their books in advance of the first day of class, allowing time for shipping. Be certain you are enrolled in the course before purchasing your book(s). All textbook information (Title, Author, ISBN, etc.) is available in the course syllabi so students can shop competitively. Most textbooks can be purchased from many different textbook vendors. Some textbooks may only be available on the University's Virtual Bookstore. Students should be careful to obtain the exact resource(s) required for the course.

APA Requirement

APA (American Psychological Association) style is most commonly used to cite sources within the social sciences. All coursework at Amberton University will comply with the standards contained in the APA Publication Manual.

COURSE POLICIES:

(1) DO NOT plagiarize in any way. Any student that plagiarizes, regardless of intent, **will receive a zero** for the assignment. Academic honesty is highly valued at Amberton University. A student must always submit work that represents his or her original words or ideas. Review the section herein that discusses Academic Honesty/Plagiarism. Plagiarism can be described as, but is not limited to the following examples:

- Having a tutor or friend complete a portion of your assignments.
- Having a reviewer make extensive revisions to an assignment.
- Copying work submitted by another student to a public class meeting; and/or,
- Using information from online information services without proper citation.

(2) Late Policy for Assignments is as follows:

Late Assignments will be penalized with a 10% grade deduction for the first 2 days late and 5% each day afterwards up to 5 days unless you have made prior arrangements with me. You lose 10% whether

you are one or two days late. The reason for this is to ensure if you are going to be late that you do not rush the assignment to turn it in. If circumstances arise that preclude you from meeting course requirements or assignment deadlines you must notify me **immediately**. If an assignment is turned in **5 or more days late, NO points will be earned. Deadlines will be defined as 11:55 p.m. CST on each due date**. Do not wait until the last minute to turn in assignments. The syllabus is offered well in advance to allow students to plan accordingly.

Special Note: No late assignments will be accepted in the last week of the course, except in extreme circumstances and arrangements have been made with the instructor prior to the due date. No assignments or exams will be accepted after the course end date.

(3) No Extra credit - I do **NOT** provide extra credit work in this class.

(4) Assignments not submitted correctly will not be graded and will be returned. Resubmitted assignments must still be in by the due date. On time due date credit is not given for assignments that are returned ungraded.

(5) All assignments must be completed in order to receive a passing grade in this course. Even assignments that are late and do not receive a grade must be turned in. In other words, you do not have the option of skipping one or two assignments and taking a lower grade in the course. **Failure to complete all assignments as specified will result in a grade of an "F."**

(6) Assignments that do not rise to the level of university work will be graded accordingly. Please adhere to recognizable and consistent guidelines when preparing your papers, especially when citing other sources. **APA standards will be strictly enforced**, so be sure to use the APA Manual, rather than programs which claim to do this automatically. I have not yet seen any programs that do this perfectly.

(7) Academic Resources - When you are conducting research for an assignment, the majority of your sources should be the **textbook** or **peer-reviewed academic journals**, such as those you find in the University library databases.

- **WARNING: Internet searches will often take you to non-academic information resources** such as Wikipedia.com, Ask.com, Encarta.msn.com, Infoplease.com, etc. Keep in mind that the information you find in these sources is unreliable and may not be accurate, since it does not come under a formal oversight or peer-review process. Avoid using these types of sources. **It is NOT permitted in this course and will NOT be counted towards fulfilling assignments.**

While you may use and cite some non-academic resources such as trade journals or an organization's website only when researching a company, you may not rely on them exclusively. With the exception of company Web sites for company research, no un-authored material may be cited in this course. If a company Web site is used, students must take strong measures to determine the *author* (corporate or individual) and *date* of the material cited, per APA guidelines. No other un-authored sources may be used.

The use of primary sources, when appropriate, is always encouraged. For example, when writing about leaders in certain industries, one may want to issue questionnaires, surveys or conduct interviews. Data from these sources is considered primary, as opposed to secondary data found in some peer-reviewed journals. Keep in mind, there are proper ways of conducting primary research and these methods go beyond the scope of this class. Therefore, quality secondary sources should be your primary source of research and information.

Remember that you are responsible for the accuracy of any facts presented in your assignments and therefore should confirm the veracity of information you find on non-academic sources through further research.

(8) A successful learning experience depends on the student's willingness to stay on schedule with respect to due dates, course readings and other requirements. You are encouraged to plan ahead and pace yourself so that adequate time is allotted for each assignment and unexpected circumstances do not hinder your success.

(9) Feedback – I will provide feedback for **graded exercises/assignments** within 5-6 days of the due date. Graded exercises/assignments are **not** the same as exercises that receive participation grades. Assignments that count as participation (forum discussion) will **not** be graded in the same manner. They are designed to address specific course competencies and as a means to keep you on track and to see how you are processing the course content. I **will review** your forum discussions and at times respond to your postings. However, if you need feedback at any time regarding participation assignments, please ask me, and I will be happy to provide it.

(10) Amberton University policy states that it is up to an instructor's discretion as to whether or not he or she grants an "Incomplete" at the end of a course. Be advised, **I do NOT grant "Incompletes"** in my courses. If special circumstances arise, please reach out to the professor as soon as possible.

Student's Responsibilities

This syllabus contains information, policies, and procedures for a specific course. By enrolling, the student agrees to read, understand, and abide by the policies, rules, regulations, and ethical standards of Amberton University as contained in the current university catalog and schedule of classes.

Attendance Policy:

Regular and punctual class attendance and engagement is expected at Amberton University. In case of an absence, it is the student's responsibility to contact the professor as soon as possible. If a student intends on withdrawing from a course, it is the student's responsibility to follow the university's policy on formally withdrawing from a course. **Ceasing to attend classes does not constitute an official withdrawal.**

Attendance in a lecture course is defined as punctual arrival to, and engagement in, a full lecture session. A Student in a lecture course missing more than 20% (two class periods for weekday classes or one class period for Saturday classes) of the class meetings may be assigned a grade of an "F" or withdrawn at the discretion of Amberton University.

Attendance in a distance learning course is defined as active participation in the weekly online class sessions. "Active participation" can be defined as: submitting an academic assignment, taking an exam, engaging in an interactive tutorial, participating in an online discussion forum (or chat session), or initiating (or responding to) a communication with a faculty member about an academic assignment or the subject matter of the course. A student not meeting these requirements may be assigned a grade of an "F" or withdrawn at the discretion of Amberton University.

Plagiarism Policy

Plagiarism is the presentation of someone else's work as though it were your own. If you use another person's words, ideas, or information; or if you use material from an outside source – whether a book, magazine, newspaper, business publication, broadcast, speech, or electronic media – you must acknowledge that source. Plagiarism is a violation of the University's code of student ethical conduct and is one that is taken seriously. Amberton University operates on an honor system; therefore, honesty and integrity are essential characteristics of all who are associated with the institution. All Amberton students are expected to abide by the honor system and maintain academic integrity in all their work. Amberton University and its instructors monitor student work for plagiarism and reserve the right to submit such work to technology-based plagiarism detection services and applications at any time.

Self-plagiarism means reusing work that you have already published or submitted for a class. It can involve:

- Resubmitting an entire paper
- Copying or paraphrasing passages from your previous work

Self-plagiarism misleads your readers by presenting previous work as completely new and original. Students may not submit the same paper in substance in two or more classes without prior written permission of the instructors involved.

Amberton University students who use Artificial Intelligence (AI) generated content must adhere to the following policies:

Originality: Students must avoid presenting AI generated content as their own original work. It is essential to acknowledge the involvement of AI in the content creation process in order to maintain academic and ethical standards.

Paraphrasing: When using AI generated content, students must rephrase and/or modify the generated text. Paraphrased AI generated content should also be properly cited.

Acknowledgement: When using AI generated content in any assignment, proper credit must be given to the AI system that generated the content. <https://apastyle.apa.org/blog/how-to-cite-chatgpt>

Students agree that by taking this course, all required assignments may be subject to submission for a textual similarity review to Turnitin.com for the detection of plagiarism and self-plagiarism. All submitted papers will be included as source documents in the Turnitin.com reference database solely for the purpose of detecting plagiarism in future papers. Use of Turnitin.com service is subject to the Usage Policy posted on the Turnitin.com website.

Turnitin is a writing improvement and plagiarism prevention tool which uses special algorithms, to compare text-based student submissions to the Turnitin database and other online sources. Turnitin produces a detailed **similarity report** that can be customized and viewed by instructors and students.

Turnitin “Draft Coach” is a Google based add-on to Turnitin which supports students in developing high-quality academic writing; and serves as an integrity coach. Draft Coach helps address errors and improve the quality of student’s writing by highlighting grammar mistakes, identifying incorrectly cited sources, and scanning for similarity across several databases. By providing formative feedback on how to address citation issues, incorrect grammar, and matches with the Turnitin database, Draft Coach provides explanations to help students become more confident writers, capable of producing higher quality work both in academics and in the workplace.

GRADE NOTIFICATION AND INSTRUCTOR FEEDBACK:

A successful distance learning experience requires a flow of communication between instructor and student throughout the session. Instructor comments are considered essential to the learning process. Therefore, each assignment/exam submitted will be reviewed, graded, and returned to the student in a timely manner along with the appropriate commentary. Students should carefully review all comments.

Final grades are processed approximately one week after the last day of the session and may be located in the My Grades section of the online registration portal as well as being emailed to the student's Amberton University email. Amberton University staff will not release grades over the phone. University instructors will not leave a message with comments or grades in any type of media that is not secure.

For questions regarding grades after the semester has ended, students should use their university email account and contact the instructor at the faculty email address as provided above in *Professor Information* area.

Incomplete Grades

An “I” (incomplete grade) is given at the discretion of the professor and may be given only when an emergency or illness prevents the student from completing course requirements. Should an “I” be granted, the student has 30 days from the end of the session to complete the conditions of the incomplete. An “I” which is not properly removed within 30 days following the session enrolled will become an “F” grade.

How To Withdraw From a Course

To be official, the class withdrawal must be in writing and signed by the student requesting the withdrawal; no withdrawal is accepted verbally. Please review the “Schedule of Classes” (online or in-print) for procedures for class changes or withdrawals and the refund policy and schedule.
