

Information Technology Support Technician

This role requires a mature and dependable professional who can work flexible hours, including occasional evenings and weekends. The ideal candidate should have an Associate or Bachelor degree in a computer-related field or equivalent work experience.

Key Responsibilities:

- Maintenance of the University's networks, servers, and computer systems.
- Providing technical support to students and employees.
- Learning new software systems to support University operations.
- Assist in maintaining the University's website and various software applications.
- Knowledge of networking equipment, servers, and system maintenance.
- Familiarity with Moodle or other course management systems is preferred.
- Experience with Linux and Windows.
- Ability to complete assigned projects successfully.
- Capability to work independently and with other employees.
- Programming knowledge and ability.

Working Conditions:

- Full-time office position.
- Day, occasional evening, and weekend work as needed.
- Must provide own transportation.

Benefits:

- 401(k)
- Health insurance
- Life insurance
- Paid time off
- Retirement plan
- Tuition reimbursement
- Vision insurance

Application Process:
