

MASTER of SCIENCE

ORGANIZATIONAL LEADERSHIP

Program Overview

The Master of Science in Organizational Leadership degree is designed for individuals who have achieved success in their careers and anticipate or have received a promotion to a leadership position. The mission of the MS in Organizational Leadership program is to prepare students for leadership and management roles that require the sophisticated application of people skills in an ever-changing business environment by educating them in management, organizational and human behavior, and communications. Degree goals are achieved through multi-disciplinary studies in management, organizational leadership, and communications. Graduates will fill leadership and management roles that require the sophisticated application of people skills in an ever-changing business environment. The degree program is offered through a mix of on-campus or online courses or 100% online.
